Personal Mention

Engineer Read of the reclamation service left last night for Nogales to inspect the river gauging station there. He expects to be home on Sunday.

Mrs. Russell Leonard and children left last night for Detroit, Michigan, for an extended stay with relatives of Mr. Leonard. The occasion of the trip is a surgical operation which has been found necessary for the restoration of Mrs. Leonard's health and she goes to Detroit that she may have the advantage of treatment in the Women's hospital there and at the same time be with relatives.

Miss Koepel of Kansas City, who has been visiting Mrs. Fred Voiz, left last night for California.

Judge A. C. Baker and family returned yesterday from the coast.

W. H. Shered and family of Portland, Oregon, arrived in the city yesterday and will spend the winter in the valley.

Traveling Conductor Sippy of the Southern Pacific, returned from Los Angeles yesterday.

Miss Ethel Meehan left last night for El Paso, where she has a position. She has been employed at Wakefield's grocery.

Richard Warren, traveling passenger agent of the Rock Island system, with headquarters at El Paso, was in the city yesterday on business.

Judge Chalmers left last night for Los Angeles, on business.

J. R. Thorne of Denver, formerly manager of the Buckeye Canal company, arrived in the city yesterday on business.

A. E. Bellows and wife arrived from New York yesterday for the winter and are stopping at the Ford at present.

Rich Darling of Quartzsite was a business visitor in the city yesterday.

J. K. McCarthy of Florence was in the city yesterday on business.

Mr. and Mrs. J. Zellinger of Tombstone were visitors in the city yesterday.

D. W. Ramage and daughter, Mrs. Milton Shook of Winfield, Kansas, arrived in the city yesterday for the winter. Mr. Shook will come to Arizona late in the year and the family will permanently locate.

J. Austin Tobey and family of Louisville, Ky., arrived in the city yesterday and will spend the winter in the country near Phoenix.

A. L. Hearn of Birmingham, Ala., arrived in the city yesterday to spend the winter.

F. Manning of Flagstaff was a business visitor in the city yesterday.

J. H. Hobbs of Wichita, Kansas, was among the arrivals yesterday for the winter season.

Porter Valmont of Burlington, Vt., arrived in the city yesterday for the winter.

D. M. Cutler of Kansas City is a recent arrival for the winter.

John J. Newell of Naco, was a business visitor in the city yesterday.

R. G. Williamson of Nogales was in the city yesterday on business.

J. L. McDowell returned yesterday from the coast, where he has been spending a vacation.

Among the guests at the Hotel Adams yesterday: Margaret Volker; C. Brown, City; J. D. McRae, St. Louis; Miss Edith Davis, England; Miss Marjorie, Los Angeles; Harry Hughes, Colorado.

Rich Darling, Quartzsite, F. M. Bain and wife, of San Francisco, Dr. Swickard of Denver, J. B. Hetchick of Jackson, Mich., and E. A. Kauffmann of Wickenburg, were guests at the Ford hotel yesterday.

Among those registered at the Commercial yesterday were: M. Straugh, Lowell, A. T.; E. A. Lewis, H. H. Greist, W. D. Kemp, City; D. W. Carver, Mr. J. C. Robertson, and wife, Mesa; Mr. and Mrs. Willis, Prescott; Wm. McIntyre, Flagstaff.

There is no other treatment or medicine for catarrhal troubles that is at all like Hyomel. It follows nature's plan in curing diseases of the throat and lungs by bringing healing medication right to the very spot where the disease germs exist. With this treatment, health-giving oils and balsams are breathed through a neat pocket inhaler that comes with every outfit, so that every breath you take while using Hyomel is a breath of healing air. It kills all catarrhal germs and prevents their growth, so that the cure is thorough and permanent.

Remember that Hyomel is sold under a guarantee to cost nothing unless it cures. If you have any catarrhal trouble, you should take advantage of The Larson Drug Co.'s liberal offer.

A CARD OF THANKS.

We feel to express publicly our heartfelt thanks and sincere gratitude to our many far away friends in behalf of their kindness during the illness and death of our dear beloved son and brother to the bereaved wife and family. Mrs. and Mrs. H. H. Elliott and family.

Indianapolis, Indiana.

UTAH MINES STOPPED BY A STRIKE.

Park City, Utah, Sept. 25.—Objecting to the employment of non-union miners, 350 men employed by the Daly, West, Ontario and Little Bell mines, all members of the Western Federation of Miners, quit work today. The properties have suspended operation.

WEATHER TODAY.

Washington, D. C., Sept. 25.—Arizona forecast: Generally fair Thursday and Friday.

GERARD-JONES DRY GOODS COMPANY

Of Local Interest

IRON SPRINGS DESERTED.—The families of W. D. Fulwiler and W. J. Murphy, the last of the Iron Springs colonists to leave that resort, returned to the city on Tuesday, leaving the springs in charge of a caretaker.

ANOTHER VICTIM OF THE EPIDEMIC.—Miss Angie Parker is the latest victim of the epidemic, a species of epizootic which is sweeping over the court house and she was unable to be at her post yesterday. Deputy Sheriff Adams was also obliged to remain at home. Sheriff Hayden and Deputies Wood and Davis pretend to be improving, but they still speak with a strong influenza accent.

HE THREATENED TO KILL.—Deputy Sheriff Davis yesterday afternoon brought to jail Hanson Contreras, who was arrested on the complaint of a neighbor, A. Zuniga. Zuniga said that Contreras came to his house yesterday morning and first wanted to fight and as he talked he became more blood thirsty and threatened to kill him. Both are ranchers living on the other side of the river.

A MONKEY AND A PARROT COMMISSION.—Sheriff Hayden has received a letter from a woman living at Silver Bell directing him to buy her a parrot and a monkey. She desires him to visit the monkey and parrot stores of Phoenix and make a selection with as much care as if he were going to buy the monkey for himself.

She only stipulates that it must be a young one, capable of being trained. The sheriff is further directed to send the goods C. O. D.

WILLIS, WILSON.—On Tuesday there appeared on the register of the Commercial hotel the names of Frank Willis of Prescott and Miss Annie Willis, also of the City of the Pines. Yesterday afternoon their names are again entered on the register, this time as Mr. and Mrs. Frank Willis, Prescott. They were united in marriage by Probate Judge Phillips. Mr. Willis is a railroad man in the employ of the S. P. & P.

AN INQUIRY FOR A BROTHER.—A letter was received yesterday from Maggie E. Gullett of San Diego, making inquiry for a brother by the name of Squire Gullett, a farmer, who the last time she heard from him was living in one of the farming districts of this territory. Miss Gullett has lately arrived at San Diego from her former home, Middletown, O. Her brother is not aware of her present whereabouts and she would like to have the powers of the territory take notice of the inquiry.

A PROSPECTIVE PHOENICIAN DIES.—J. L. Irvin yesterday received the sad news of the death of P. B. Johnson of Reidsville, North Carolina. Mr. Johnson was an old friend of Mr. Irvin and had intended to come to Arizona to spend the winter, but before leaving was suddenly taken ill of typhoid fever and died in less than two weeks. He was one of the wealthiest men in his county, a prominent lawyer and president of the Reidsville National Bank. Mr. Irvin was very sorry to learn of his demise.

A MISCELLANEOUS COLLECTION.—Justice Johnson yesterday made the office of the clerk of the district court look like a junk shop. He cleaned out his own office of the exhibits which have been gathering there for months. In fact he did little in the course of the day except to lug plunder of one kind or another across the street. There was the silk shirt suit of the late of Angel Palmino, which bears the mark of a knife made when her husband tried to stab her to death; there is the bloody and torn shirt of Jim Black, a gutta, and a varied assortment of clothing which Henry Lawson stole from the house of R. C. Plenty, a collection of razors, cigars, rum and other alcoholic fluids which Louis Sanchez captured in a raid of barber shops and saloons one night. The justice insisted strenuously on having all these things and many more not herein enumerated put into the office safe.

FAIR MATTERS.—The fair management has granted the Crittenton Home management a complimentary concession for the maintaining of a booth on the grounds during fair week, for the serving of meals and as a woman's rest room. This was done last year and the Home kept a very convenient and attractive place for the women, serving meals of course, for their remuneration. For similar permits, the fair management charges five dollars a day, but the exception was made last year in behalf of the Home, on the theory that it was a good thing for the fair and would enable the Home to pick up a few dollars also. The theory was found to be a correct one and is therefore adhered to again this year. The annual catalogue and premium list for the fair is now in the hands of the printer and it is expected will be ready for distribution in a few days.

THOSE REPUBLICAN SPOONS.—In order to provide sufficient space for the accommodation of news mat-

ter in this issue, The Republican has found it necessary to leave out its large display advertisement in which the magnetic silver spoon premiums are offered. The offer still remains however, and those who desire to secure a set of the spoons, are urged to hurry. If the demand continues until Saturday the first lot of 500 sets will have been exhausted. A like number of sets are on the road, however, and will be here in a short time. Pending the arrival, The Republican would like to get as many orders booked ahead as possible. The spoon advertisement first appeared in the Sunday morning issue of this paper and about 400 sets have been disposed of already. There is a moral in this fact for any person who may still have a lingering doubt about the advertising columns of The Republican being read.

AUSTRALIAN MILLET.—J. I. Chapman, who lives on a ranch east of the Indian school, under the Arizona canal, brought to The Republican office a grain sample of merit; something it would appear that the valley farmers should know more about. It is Australian millet, grown by Mr. Chapman mainly for chicken feed. The sample is four feet in height, the grain being abundant. The kernels or seed resemble broom corn very much in general appearance and are said to make an excellent food for poultry. The straw and leaves on the sample sheaf indicate that they would make excellent forage also, as far as a pencil pusher could judge. A particular virtue of the plant is its quick growth. Mr. Chapman's crop which is now matured was planted just five weeks ago, and has had but two irrigations. It would seem as though about three crops of this might be raised in one year on the same land, though whether it has been experimented The Republican is not advised.

BIGGEST EGG PLANT.—The biggest egg plant in the world, grown on an egg plant, has been raised in this valley. If it is not the biggest it is the biggest on record hereabout, and is surely as large as any self-respecting "egg" can grow and retain good health. It weighs four pounds, and that is saying a great deal for this vegetable is not noted for its specific gravity to the cubic inch. This particular specimen is larger than some pumpkins that find their way to market and Secretary Cowgill has nothing in the line of glass jars at the board of trade that will begin to accommodate it. He would like to preserve it if possible, but he has devised no way for doing so yet unless he can embalm it. The vegetable was grown by some local resident whose name was not learned, and taken to market in the regular course of business. A citizen seeing it offered for sale, bought it and presented it to the board of trade. It will be noted that it is called an egg plant in the headline, and later, an egg. This is to cover all mistakes for the writer is not informed which is the correct name. The entire plant is an egg plant, and this is the fruit of it. The fruit being only part of the plant, must be merely the egg. If the egg alone is an egg plant, what is the plant alone?

WORK THAT COUNTS.—As a quiet and unostentatious immigration agent, who gets there with both feet,

Phoenix should take her hat off to L. C. Charles, who runs a carriage painting emporium in this city. He has been here three or four years, and has become thoroughly saturated with information concerning the valley and enthused over the upbuilding the city, though he restrains himself from any noisy demonstration. Early in the summer he had to go back to Indianapolis, on private business. His old friends and neighbors flocked around him to hear about Arizona. He told them a few things; just enough to interest them, and not enough to weary them. He made it appear that Arizona had a good thing and was not concerned about the future, though when pressed he admitted that it was the right place for the right people to come. The result was that when he got on the train to come home a whole family of his old friends was there to come with him. Yesterday another family arrived, having heard nothing but good reports since their curiosity was first aroused. Both families are well pleased and say their only criticism of Mrs. Charles is that he didn't tell them more and tell it sooner. He only half painted the picture and was altogether too stingy with his tinting. If he had turned himself loose when he was back east half of Indianapolis would not be working its way west along the transcontinental lines.

STRIKING OPERATORS DEMAND EXTENSION

They Want the Press and Brokers' Telegraphers Called Out.

New York, Sept. 25.—The New York local of the Commercial Telegraphers Union voted tonight to call out all the leased wire operators, employed by the press and brokers' offices in the city if such action shall be sanctioned by the national officers. The action of the national officers will be awaited before anything further is done.

It was voted also to ask the national officers to issue a call for brokers' and press telegraphers throughout the country to quit work. The demand on the men who are now working under contract is made in the interests of those who have struck against the Western Union and Postal Telegraph companies.

WILL PROSECUTE FISH.

Chicago Prosecuting Attorney Wants More Knowledge of Alleged Misappropriation.

Chicago, Sept. 25.—States' Attorney Healy today said regarding the charges against Stuyvesant Fish, contained in a statement issued yesterday by President Harahan of the Illinois Central Railroad: "If I obtain information that Harahan's charges are true and that the alleged misappropriation of funds occurred in this city, this office will certainly take action."

NO MORE CATARRH.

The Larson Drug Co. Will Not Allow It to Exist in Phoenix.

"There will be no more catarrh in Phoenix," says The Larson Drug Co., "unless people fail to follow the law of common sense."

The Larson Drug Co. makes this statement because of the great success which has followed the use of Hyomel in the treatment of catarrhal troubles. So positive is this treatment in quick relief and permanent cure that they sell it under an absolute guarantee to refund the money if it does not do all that is claimed for it.

There is no other treatment or medicine for catarrhal troubles that is at all like Hyomel. It follows nature's plan in curing diseases of the throat and lungs by bringing healing medication right to the very spot where the disease germs exist. With this treatment, health-giving oils and balsams are breathed through a neat pocket inhaler that comes with every outfit, so that every breath you take while using Hyomel is a breath of healing air. It kills all catarrhal germs and prevents their growth, so that the cure is thorough and permanent.

Remember that Hyomel is sold under a guarantee to cost nothing unless it cures. If you have any catarrhal trouble, you should take advantage of The Larson Drug Co.'s liberal offer.

ADVANCE SHOWING NEW FALL DRESS GOODS

WITH A REPRESENTATION OF THE LATEST WEAVES ALREADY FAR IN ADVANCE OF ANY SHOWING WE HAVE MADE THUS EARLY IN THE SEASON, new arrivals are being received daily in effective color combinations in almost endless variety. Of course we have every known solid color, but what we want to call attention to most particularly is the superb assortment of fancy Panama effects—Checks and Plaids until you can't rest. It's an exposition of all the newest Autumn Fabrics, representing the choicest products of both American and foreign weaves. A broad price range

50c to \$1.75

This is the era of The Home Dressmaker, made so largely by the perfection attained by the Ladies' Home Journal Patterns which are sold here, and here only. There is a patented Guide Chart furnished free with each Ladies' Home Journal Pattern. It answers the 161 questions which a woman wants to know, about a pattern before she buys it. The shape of every piece in the pattern is shown at a glance. A woman may want to know if the pattern is suitable for making over an old garment, or if she can use some old trimmings or old material on hand, or if the pattern can be adapted to some individual idea. All these and many more questions are quickly answered at the pattern counter by a glance at the guide chart.
